# C-OPN Manuscript Citations

By-line:

Include the phrase "the Canadian Open Parkinson Network" with the asterisk referring to the following statement and list of names:

*\* Data used in the preparation of this article were obtained from the Canadian Open Parkinson Network (C-OPN) database (www. COPN-RPCO.ca). As such, the investigators within the C-OPN contributed to the design and implementation of C-OPN provided data but did not participate in analysis or writing of this report. We gratefully acknowledge the funding support for this research from Parkinson Canada and Brain Canada. A complete listing of C-OPN investigators can be found at: ([https://copn-rpco.ca/research/](https://copn-rpco.ca/research/))*

Methods Section:

*Data used in the preparation of this article were obtained from the Canadian Open Parkinson Network (C-OPN) database ([https://copn-rpco.ca/research/](https://copn-rpco.ca/research/)). The C-OPN was launched in 2020 as a unique pan-Canadian initiative bridging people, resources, and data to accelerate Parkinson's disease discoveries through generous contributions of Parkinson Canada and Brain Canada. C-OPN study data were collected and managed using REDCap electronic data capture tools hosted at the University of Calgary. For up-to-date information see [https://copn-rpco.ca/](https://copn-rpco.ca/)*
